January 2024

Design of the Month

Each month, we highlight one of our designs as inspiration for future clients. January's visualisation was created by Dan and Alan: a dressing room and media room project in Tanworth-in-Arden. The brief included a multi-generational space for extended family and a spare bedroom conversion into a stunning yet practical storage space (see main image). Visit our social media pages for installation photos!

January Promotions

Take advantage of one of our most popular promotions this month: Half Price Fitting with All Orders. Applies to kitchen, bedroom & home offices.

Free smart dock with selected Siemens & Neff appliances.

2024 Kitchen Trends

3 of our favourite trends making the design headlines right now...

1. Layered, understated lighting. Integrated cabinet lighting is perfect for a softer, more ambient look.
2. The Butler's Pantry: Maximising storage space whilst exuding luxury: a winning combination!
3. Integrated devices: voice-control, touch screens and Wi-Fi connectivity are becoming the norm in leading appliances.

Ex-Display Sale

We are about to embark on a huge renovation of the downstairs area of our Bromsgrove showroom. This means we have 8 ex-displays available to buy at hugely discounted prices.

From handleless German styles to painted Shaker, there's a style to suit all tastes. The majority are current ranges which means additional furniture can be ordered if required.

Priced between £5,000 and £10,000, the furniture will be sold on a first come, first served basis and will be removed by our experienced fitting team prior to collection. Please arrange an appointment to view the ranges by registering your interest via the enquiry form on our website.
